

Deliver Virtual Gift Cards from Your Website

Giftango eCard Solution allows customers to interact with brands in exciting new ways...

Virtual gift cards dramatically lower fulfillment costs and a host of additional benefits including:

- Verified delivery – Cards are delivered to the consumer’s email immediately at the conclusion of the transaction. This eCard Solution tracks the receipt of the gift card and issues reminders to the consumer if they have not viewed their gift card
- Brick & Mortar Retail Acceptance – Retail outlets accept the printed or mobile versions of the gift card
- A unique consumer experience including: the ability for the consumer to re-gift the virtual card, select from numerous gift card designs, view video on the card, and display a mobile friendly version of the gift card on their phone
